APPENDIX 1

MAR 25 2003

CLEAN COPY OF THE AMENDED PARAGRAPHS AND TEXTUAL PASSAGES
TECHNOLOGY CENTER 2800

The paragraph on page 38, lines 9-14, now reads as follows:

c1
On the basis of the results of MTF measurement on arrays A - C, the present inventors prepared Table 3 which shows the relationships between the resolving power variation index G and each of the average value and deviation of the center-line-average (CLA) roughness of the peripheral surface of the constituent rod lens.

The text on page 38, at line 16 now reads as follows:

Table 3

The paragraph on page 40, at lines 11-14, now reads as follows:

c2
On the basis of the results of MTF measurements on arrays D and E, the present inventors prepared Table 4 which shows the relationships between the resolving power variation index G and the variation in the diameter of the constituent rod lens.

The text on page 40, at line 16 now reads as follows:

Table 4
